### Web Servers

Apache Tomcat, IBM Web Sphere

### Operating System

Microsoft Windows, Mac OSX, Linux UBUNTU, Kali Linux

### Tools and Utilities

IBM RSA, Clear Case, Eclipse, Rest Client, Maven, Bitbucket, Git, Jira

## WORK EXPERIENCE

### Log Analyser (01/2016 – 05/2016)

- Java, 1.7, Angular JS, Oracle 10g, Restful web services, HTML, CSS, node JS
- Reads the log files generated at a server location and updates an interactive UI with all the details from the log thereby severely reducing the time required by the developers to analyze the logs manually

### Anthem- Shopper Individual Health Insurance Exchange (05/2016 – 11/2016)

- Java 1.7, spring 3.0, Spring Web Flow, JSP, SQL Database
- The application contains options for shopping & quoting of medical, dental and life insurance plans. User can create and modify applications for the selected plans

### Anthem- Shopper Online Store Admin Console (Individual/Senior) (11/2016 – 02/2018)

- Spring 4.1.6, Java 1.7, Junit 4.12, MS SQL
- Admin console is an admin tool which is used for internal report generation purpose by Anthem employees. This was a modernization project which migrated the existing application from SOAP to RESTful & Spring boot and the front end was developed using Angular JS

### Anthem- Commercial Sales Compensation (02/2018 – Present)

- Spring Boot 2.1.0, Java 1.8, Junit 4.12, Oracle, Mongo DB
- An application developed with microservice architecture
- This project deals with the computation of the Agent commission based on the business criteria
- Worked on design, framework creation, development and deployment of 4 services and 2 batches developed with spring batch framework
